DO HEREBY RESOLVE:

**WHEREAS** our ancestors had been able to travel between Georgina Island and our traditional territories on the mainland using the natural land link; and

**WHEREAS** the natural land link was lost with the flooding of Lake Simcoe for the construction of the Trent Severn Waterway; and

**WHEREAS** there is not a single, safe, secure and reliable all weather transportation method between our island and the mainland; and

**WHEREAS** our transportation method, the AAzhaawe ferry, cannot operate during winter months and experiences breakdowns making it an unreliable and potentially hazardous mode of transportation; and

**WHEREAS** our community feels unsafe crossing the lake during the winter over an uncertain ice structure whether by foot or using airboats, snowmobile, all terrain and utility terrain vehicles and cars; and

**WHEREAS** many community members have lost their lives attempting to cross the Lake; and

**WHEREAS** climate change is making water levels in Lake Simcoe unpredictable for transportation; and

**WHEREAS** a safe secure and reliable all weather transportation method is of paramount importance for the health and safety of our community; and

**WHEREAS** studies have indicated that a Fixed Link, comprising of a causeway and bridge, will offer a safe passage between Georgina Island and the mainland during all seasons, increase economic development, tourism, employment, health and safety for our community; and provide better opportunities for our youth to participate in educational and recreational programs on the mainland while protecting the health, cultural, social and economic well-being of our community; and
